

# ARTISTA

## **SCHOTT ARTISTA® clear: texture by design**

SCHOTT ARTISTA® clear glass is made from the finest quality low-iron sheet glass. The crystal-like clarity of the glass showcases the interior and makes the space appear larger. The subtle structured pattern brings life and sparkle to the room.

## **Variety of glazing options**

SCHOTT ARTISTA® clear glass can be processed the same way as conventional glass - either as laminated glass or insulation glass. This opens up a variety of additional functions ranging from thermal to sound insulation.

ARTISTA® clear glass offers diverse application possibilities for both interior and exterior use: as a full pane, in stained glass or as a fused glass.

- Available for fusing applications
- Suited for stained glass applications
- Available as cast glass, thin glass and frits
- A wide range of glass manufacturing options (e.g. as laminated glass or insulating glass)
- Structured on one side

<b>Nominal thickness</b>	<b>Tolerance</b>	<b>Dimensions</b>
2.75 mm	± 0.25 mm	1,000 x 1,500 mm
		1,600 x 1,500 mm
		2,100 x 1,500 mm
4.0 mm	± 0.25 mm	1,800 x 1,500 mm
		2,100 x 1,500 mm
6.0 mm	± 0.50 mm	1,000 x 1,500 mm
		2,100 x 1,500 mm

SCHOTT's decorative glasses such as ARTISTA® clear glass are exquisite materials for creative designs and exceptional architecture. SCHOTT provides advice to architects and designers to help implement and realize new ideas.
